

IMPLEMENTATION TRAINING TEXAS ReTEKS

ReTEKS is a targeted, 30-day science STAAR and EOC preparation program for 5th grade, 8th grade, and Biology scholars. Teachers keep students highly engaged with data-driven scopes that address all the new Streamlined TEKS. STEMscopes provides implementation training to campuses and districts so teachers will be given the maximum opportunity to instruct using quality resources in a stress-free, productive, and engaging format. Through hands-on, inquiry-based strategies, teachers will develop an understanding of how STEMscopes ReTEKS is set up, where resources are located, and how to glide through lesson planning.

THE OUTCOMES

-  Learn how to navigate the ReTEKS digital program
-  Experience hands-on centers included within the ReTEKS program
-  Plan for success using ReTEKS (countdown to STAAR)

THE OFFER

Allow us to customize your professional learning session to address your district's or school's unique needs, resources, and schedules. Face-to-face, 3-hour session for up to 50 participants at \$1600.00.
