

POWER YOUR SCHOOL YEAR

STEMscopes, the nation's leader in K-12 STEM education, PowerSchool's Schoology, and Canvas provide a communication and collaboration platform that fully supports in-person, online, or blended learning instruction. In one streamlined integration, we make online learning easy to access, simple to manage, and successful for your district's administrators, teachers, students, and parents.

Top Features

- Deep Linking
- Grade Passback
- Data Integration
- Integrates with all SIS platforms

Engage Your Parents

Answer questions, share resources, and stay connected to parents.

Enhance Your School Operations

Efficient, intuitive tools simplify operations and interoperability to save you valuable time needed to focus on driving student learning and growth.

Empower Your Teachers

Provide the tools and technology teachers need to improve and innovate instruction, collaborate and share resources, connect with students and parents, and unify the classroom, all in one place.

Support Your Students

Starting with enrollment and extending into the classroom, you can share resources, provide feedback, and identify student learning needs through real-time data integration.
