

## A ReMARKABLE Program to ReVIEW for Science STAAR™

ReTEKS is a targeted, 30-day Science STAAR preparation program for 5th and 8th grade scholars. Teachers keep students highly engaged with data-driven scopes that address all Readiness and Supporting TEKS. Whether you are ReFRESHING the memories of successful students or ReTEACHING struggling scholars, ReTEKS is designed to ensure mastery. Created by teachers for teachers, ReTEKS can be used whole group, individually, or as summer ReVIEW.

### Instructor Lesson Plan

TEKS unwrapped, facilitation points, answer keys, and materials lists

### Picture This

Engage your students and reconnect to prior learning

### Concept Exploration

Close the gap between what students remember and should know

### Sciencecabulary

Rebuild academic vocabulary comprehension

### Readiness Assessment

Confirm which students “got it” and which students need to practice

### Science Challenge

Extend student-thinking through dual-coded activities
